THEY DO EVERYTHING A DIAMOND BLADE CAN'T!

FOR USE ON ANGLE GRINDERS AND PETROL DRIVEN SAWS

The Rippa blade is the perfect tool to accompany chain-saws. The Rippa blade will not 'clog' itself or the petrol saw that drives it.

It can be used in applications that chainsaws are not allowed to be.

Perfect for use in conjunction with stump grinders. The RIPPAs blade can be used on a huge range of different materials - one after the other - with minimal segment clean-up after use even on materials such as rubber.

DURO ULTRA RIPPAs blades have been tested in-house and approved for sale in the UK by B.S.I and in line with the GPSD (General Product Safety Directive) They are not classified as a super abrasive but are manufactured in line with the stringent standards of EN13236.

THE TOP-LINE FROM DURO, WHERE MAXIMUM PERFORMANCE IS THE ONLY CONSIDERATION DURING THE PRODUCT DESIGN PROCESS. THE VERY BEST QUALITY RAW MATERIALS ARE UTILISED TO ENSURE THE HIGHEST POSSIBLE OUTPUT.

This is the ultimate multi purpose blade. Ideal for the following professionals:

- Tree Surgeons & Landscapers
- Roofing Contractors
- Decking Contractors
- Sheet Metal Workers
- Farmers
- Council Departments
- Agricultural Contractors
- Forestry Commission
- Demolition Contractors
- Railway Contractors
- Window Fitters
