

DURO
ULTRA

TILE DRILLING CUTTING

DURO ULTRA diamond tools for drilling, cutting and sawing all grades of tiles including grade 5 porcelain.

Drill holes for installation of fixings and through pipes

Cut and shape tiles to size with our super thin tile cutting blade and even cut curves with the all new DURO curvex blade.

Drill and cut through: Porcelain (Grade 5), ceramic, quarry tiles, terracotta, glazed tiles, terazzo, agglomerates, cement, glass and much more.

DURO

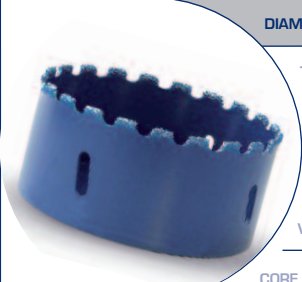

DURO

The DURO ULTRA diamond tools for tiling range offers the complete solution to bathroom, kitchen and industrial installations. Enabling the user to drill and cut the hardest of tiles and associated materials.

DURO ULTRA DIAMOND DRILLS

	DIAMOND TILE DRILL: DU-CTD	DESCRIPTION: PORCELAIN & CERAMIC A Top-Line range of welded tip diamond drills with a reverse spiral design to feed water to the cutting face, plus in-built core ejection system to prevent clogging.
	TIP TYPE: LASER WELDED TIP	
	USE DRY/WET: WET	
	DRILL FEATURE: REVERSE SPIRAL DESIGN	APPLICATIONS: FIXING HOLES AND PIPE INSTALLATION Porcelain (grade 5), ceramic, quarry tiles, terracotta, glazed tiles, terrazzo, agglomerates, cement and glass.
	VENTILATION: YES	
CORE EJECTION: YES, BUILT IN		

DURO ULTRA DIAMOND HOLESAWS

	DIAMOND HOLESAW: DUDHS	DESCRIPTION: MULTI-PURPOSE inc PORCELAIN A top line range of multi-purpose, welded tip diamond drills with slots in the core barrel to clear waste material.
	TIP TYPE: LASER WELDED TIP	
	USE DRY/WET: BOTH	
	DRILL FEATURE: MULTI PURPOSE	APPLICATIONS: PIPES & THROUGH HOLES WET - porcelain and quarry tiles, Class 5, granite, travertine, marble, reinforced glass and cement, stone - DRY - glass, polymers, fibreglass, decking, ply wood, mdf, plastics, laminates, perspex, brick, paving - LUBRICATED - cast iron, virton, aluminium
	VENTILATION: YES	
CORE EJECTION: SLOTS IN CORE		

DURO ULTRA DIAMOND BLADES - SUPER THIN

	DIAMOND TILE BLADE: DUT	DESCRIPTION: PORCELAIN & CERAMIC Super thin at 1.2 mm thick (115 & 125mm), this blade is continuous rim and turbo design to cut quickly and not chip the materials.
	SEGMENT HEIGHT: 10MM	
	DRY/WET: BOTH UP TO 125MM WET ABOVE 125MM	
	SEGMENT TYPE: CONTINUOUS SUPER THIN TURBO RIM	APPLICATIONS: CUTTING TILE ACCURATELY TO SIZE Porcelain, ceramic, natural stone and other very hard tiles. Can be used dry up to 125mm but water is recommended above this dimension.
	VENTILATION: YES	
CORE PROTECTION: NO		

DURO ULTRA DIAMOND BLADES - CURVED

	CONCAVE DIAMOND BLADE: DU-CURVEX	DESCRIPTION: HARD CONCRETE, TILE & STONE Blade is directly sintered with a high performance bond system and available in 3 diameters (115, 125 & 230mm)
	SEGMENT HEIGHT: 10MM	
	DRY/WET: BOTH	
	SEGMENT TYPE: CONTINUOUS TURBO RIM	APPLICATIONS: CURVES IN TILES FOR INSTALLATION All types of concrete, tile and hard stones. For cutting curves. The smaller the diameter of blade selected, the smaller the radius of curve possible.
	FEATURE: CUTS CURVES	
VENTILATION: YES		

DURO

The DURO ULTRA diamond tools for tiling range offers the complete solution to bathroom, kitchen and industrial installations. Enabling the user to drill and cut the hardest of tiles and associated materials.

DURO ULTRA DIAMOND DRILLS

FOR DRILLING HOLES FOR FIXING'S AND PIPES

DU-CTD - DURO diamond drills for tiles are designed to penetrate the hardest of tiles on the market. Capable of drilling grade 5 porcelain and above, the user can expect extremely long product life.

Use of water as a coolant is essential and the DURO diamond drill incorporates a reverse spiral head design that actually draws the water toward the drilling tip. The built in core ejection system prevents clogging and enables efficient, repeat drilling.

Available in sizes - 5, 6, 7, 8, 10, 16, 20, 25, 30 & 35mm as well as 5 piece kits and multi packs..

DURO ULTRA DIAMOND HOLESAWS

FOR DRILLING HOLES FOR PIPES & THROUGH HOLES

DURO diamond holesaws are designed to cut through a huge range of hard to cut materials that includes grade 5 porcelain tile.

The same design of laser welded diamond tips as the tile drills is used to achieve incredible performance and lifetimes.

Available in sizes - 19, 22, 29, 35, 38, 44, 57, 64, 82, 85, 87, 105 & 114mm plus adaptors.

Used with standard holesaw arbors.

DURO ULTRA DIAMOND BLADES - SUPER THIN

FOR CUTTING TILE ACCURATELY TO SIZE

DURO diamond blades for tiles are super thin in design. Enables the user to cut quickly and neatly, achieving a professional look and finish to the tile in question during installation.

Cooling holes in the core act as a heat suppressent while the continuous turbo rim enables smooth, long life cutting. These blades are for use in conjunction with angle ginders.

Available in sizes - 115, 125, 150, 180, 200, 230, 250, 300 & 350mm diameters.

DURO ULTRA DIAMOND BLADES - CURVED

FOR CUTTING CURVES IN TILES FOR INSTALLATION

DURO curvex diamond blades are designed for use with angle grinders for cutting curves into the hardest of tiles and other difficult to cut materials.

3 different diameters allow the user to create curves in tile to enable accurate tile fitting during the installation of shower surrounds, wash & toilet basins etc .

The continuous turbo rim enables fast, efficient cutting of curves. The smaller the diameter of blade used - the sharper the curve .

Available in sizes - 115, 125 & 230mm

DEALER SUPPORT

THE DURO SUPPORT PACKAGE

DURO offer a full range of dealer support services.

- High impact, attractivr, in store merchandising
- Product cards for in store awareness & usage instructions
- Product range cards for in store awareness
- Wide range of literature available
- Full DURO SUPPORT backing
- Full range of product videos
- Full product training

THE DURO RANGE OF PRODUCTS

DIAMOND BLADES - HARD MATERIALS
DIAMOND BLADES - UNIVERSAL CONCRETE & BUILDING MATERIALS
DIAMOND BLADES - CONSTRUCTION MATERIALS
DIAMOND BLADES - ASPHALT & ABRASIVES MATERIALS
DIAMOND BLADES - MULTIPLE APPLICATIONS
MORTAR RAKING
SPECIAL APPLICATION BLADES
ELECTROPLATED BLADES
CONCAVE BLADES
CARBIDE RIPPA BLADES
DIAMOND GRINDERS
DRY DIAMOND CORE DRILLS & ACCESSORIES
WET DIAMOND CORE DRILLS & ACCESSORIES
DIAMOND HOLE SAWS
DIAMOND TILE DRILLS & BLADES
ABRASIVE DISCS
SDS PLUS & SDS MAX DRILL BITS & CHISELS
DUST SUPPRESSION
